Apprenticeships

Did you know that you can upskill your treasury and cash management teams via an apprenticeship route, utilising more of the levy funds and achieve an ACT qualification along the way?

APPRENTICESHIP FACTSHEET

Title: ACT Professional Apprenticeships – Financial Services Professional Standard (FSP)

Duration: 36 months+

Maximum Funding: up to £18,000

Financial Service Professional Apprenticeship

The Association of Corporate Treasurers (ACT) offers two qualifications that are tailored for financial services professionals and mandated within the standard:

- [Diploma in Treasury Management](#)
- [Certificate in International Cash Management](#).

Both qualifications are part of the National Apprenticeships Scheme in England, included on the [Financial Services Professional Standard \(ST0472\)](#).

With our internationally recognised qualifications mapped against a competency framework developed in conjunction with both practising professionals and academics, the ACT is uniquely placed to support financial organisations and their employees through the treasury and cash management qualifications pathway.

For both qualifications, students will complete all preceding stages on the relevant learning pathway.

All qualification learning costs, plus assessment and membership fees are included in the levy.

How we work with Employers

We provide full support for every aspect of apprentices' engagement with ACT qualifications including programme management, progress and results reports, tuition, and revision workshops.

Employers in England can use their Apprenticeship Levy accounts to fund the training costs of their new and, in some cases, their existing finance trainees.
